### TELETYPEWRITER SERVICE

This service transmits the written word just as the telephone transmits the spoken word. You can be connected with anyone in the United States having the same service. You can transmit rush orders and information to factories, branches, warehouses, or to different departments of the business. Both the sender and receiver have typewritten copies of each message and as many as six copies can be made by each teletypewriter. Teletypewriters can be operated by anyone who can operate a typewriter. Charges are made for local and out-of-town messages depending on the distance and the length of period the service is used.

Private line teletypewriter service which is not connected to the general system is also available.

For further information call the Business Office (Dial 811).

### WIRING PLANS

Wiring plans are special arrangements that give services not available with the usual main and extension telephone services. There is no charge to install these services, and monthly charges vary. Wiring plans are easy to operate and have some or all of the following features:

**Privacy.** When you want to use your extension telephone without being overheard by someone else on the line, a cut-off arrangement will insure privacy.

**Intercommunication.** Occasions often arise when it is desired to telephone others on the same premises. A proprietor may desire to give instructions to his employee. A housewife may wish to talk to her servants. A wiring plan makes it possible to talk directly between main and extension telephones without calling the operator.

**Pick-Up.** Calls can be made or received over more than one line from the same telephone. This is helpful in cases where one person uses more than one line or when one person answers calls for a second person who is absent.

**Holding.** The holding feature is of great value since it permits you to have someone wait on one line while you make or receive another call at the same telephone over a second line.

### DIRECT LINES

Where frequent communication is required with branches or important customers, private wires afford instant direct communication without going through our central offices. They frequently cost less than the regular service.

### INTERCEPTING EQUIPMENT

This makes possible the answering at one point of any number of telephones while employees are away from their desks or talking on other lines, thereby reducing customer annoyance and congestion of your telephone lines. The charge varies with the requirements to be met.

### EQUIPMENT FOR THE HARD-OF-HEARING

People who have difficulty in hearing over the telephone may have a service that amplifies the voice heard in the receiver. Persons whose hearing is normal may also use the instrument without difficulty.

Monthly charge ..... \$1.25

Charge for changing telephone..... \$1.50

Similar equipment is also available for use without additional charge at the following public telephone locations when operators are on duty:

Equitable Building .....	120 Broadway
American Tel. & Tel. Bldg.....	195 Broadway
Hudson Terminal Concourse.....	30-50 Church St.
New York County Court.....	Centre and Pearl Sts.
Central Jury Court .....	8 Reade St., 4th Fl.
Pennsylvania R. R. Station.....	32nd St. and 7th Ave.
Main Waiting Room	
Long Island R. R. Level, East and West	
Empire State Building.....	34th St. and 5th Ave.
Grand Central Terminal.....	42nd St. and Park Ave.
Upper Level, East and West—Lower Level, East and West	
R.C.A. Building Lower Concourse.....	30 Rockefeller Plaza

### TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Postal Telegraph Cable Company or the Western Union Telegraph Company following the instructions shown under its listing in this directory. The telegraph charges will appear on your telephone bill. You may also telephone your telegrams from public telephones, paying as you would for a telephone call.

### SEQUENCE CALLING

If you wish to make a large number of out-of-town calls in rapid succession with little waiting between calls, you may file with the Company a number of calls at one time, preferably in writing. The operator will put through each succeeding call as soon as the previous one is completed. Printed forms for convenience in making up these lists will be furnished by the Business Office (Dial 811).

### TOLL CREDIT PLAN

Credit identification cards are furnished to travelling representatives of business concerns. Telephone calls can then be made from any Telephone Company business office in the United States and the charges billed to the home office. Representatives do not need to carry cash for telephone calls, and the home office has information as to the telephone selling activities of its representatives.

### OTHER SERVICES

Other services which can be readily supplied by the business office include hand telephones, black or in color, of the desk or hang-up type; extension bells and gongs; signal lamps; head receivers; chest transmitters; outdoor telephones; paging systems; house-closed service; key-town selling and other aids to economical out-of-town telephoning; and many others.

## HOW TO DIAL

If you are not sure of the number, look in the directory.

If the number is not in the directory, Dial 411.

Let's say the number is BOWling Green 9-9970

Remove the receiver.

Listen for the dial tone—a steady humming sound.

Place your finger in the opening over the letter "B".

Move the dial clockwise until you strike the finger stop.

Remove your finger and allow the dial to turn back. Do not push the dial back.

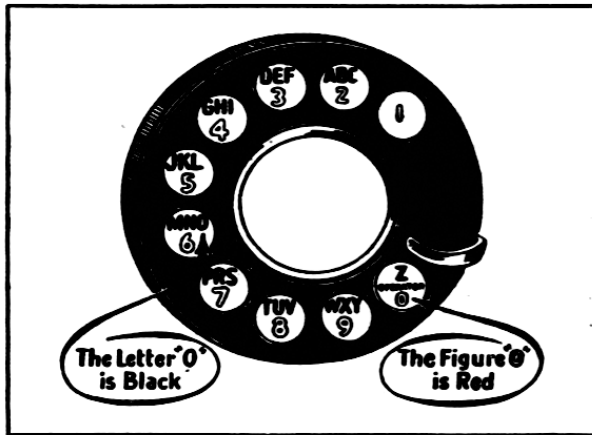

Dial the letter "O" (in black) in the same way.

Then dial the figures 9, 9, 9, 7 and 0 (in red) in order.

When you hear a burr-burr-burr sound, the called telephone is ringing.

If you hear a buzz-buzz-buzz sound, the called telephone is busy.

If you hear a buzz-buzz—buzz-buzz sound, you have made an error in dialing. Hang up for a few seconds and begin again.

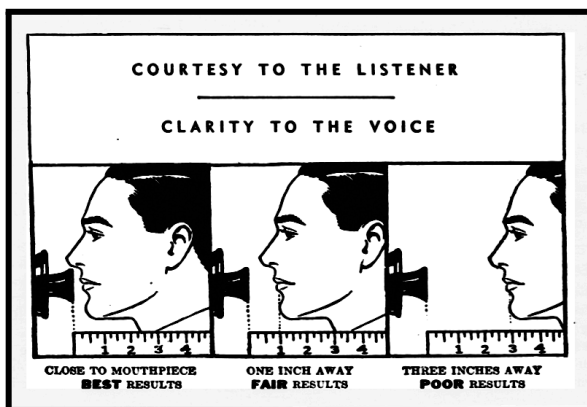

If you make a mistake in dialing, hang up for a few seconds and begin again.

If you have trouble dialing a number, hang up for a few seconds. Then dial the opening where the word "Operator" appears, and she will help you.

Dial all calls when the charge is a one-call charge. Otherwise dial "OPERATOR" and give her the number. The Business Office will be glad to send you a card showing the central offices you can dial.

If you have a party line or an extension telephone and you do not hear the dial tone when you remove the receiver to make a call, inquire if the line is in use. If there is no response, hang up for a few seconds and begin again. Listen while dialing and if you hear another party come in on the line, inform him that it is in use and request him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and begin again.

## A NOTE ON THE SPELLING OF FOREIGN NAMES

For the convenience of all subscribers, and in accordance with the printing practices of the time, names in this directory are rendered in plain Roman characters without accent marks or other diacritical signs.

This form of typesetting assures uniformity and legibility in the listings, and enables the most efficient use of the mechanical composition and telegraph systems employed in the preparation of the book.

Many names of foreign origin properly bear such marks—accents, tildes, or umlauts—but as these cannot be consistently reproduced on the standard Linotype machines used in our offices, they have been omitted without prejudice or alteration of meaning.

It is the purpose of this directory to furnish information in the clearest and most practical form. The omission of accent marks does not affect pronunciation or identity within the English usage prevailing in this city, and subscribers are requested to adopt the same simplified spelling when giving or requesting names by telephone, in order to avoid delay or misunderstanding.

## INTERESTING FACTS ABOUT OLD NEW YORK

The name of the city was changed in 1664 from New Amsterdam to New York when it became a British possession.

The first road extending the length of the island was called Bowery Road, now known as the Bowery, the word being derived from the Dutch word far farm -- Bouwerle.

Nassau Street was once known as the "Pie Woman's Lane."

Malden Lane was once a tiny stream where the Dutch maidens of old New Amsterdam used to do their washing; their dripping feet wore the "Virgin's Path" - in due time called Maiden's Lane.

Park Row was known in revolutionary days as Chatham Street.

Washington Square once served as a Potters Field.

The first house to be lighted by gas was at No. 7 Cherry Street in 1825.

Trinity Church has stood at the head of Wo.11 Street since 1697 and in the adjoining churchyard is the oldest known grave in New York -- marked with a still legible slab, telling that this is the last resting place of five-year-old Richard Churcher, died April 6th, 1681.

The first tenement house in the city was built in 1833 on Water Street, near Jackson Street.

Nathan Hale was hanged in 1776 on a farm located on Cherry Street, between Clinton and Jefferson Streets.

Bowling Green was leased in 1733 to three citizens for the rental of one pepper-corn a year.

## DID YOU KNOW?

People are loyal to their neighborhoods. Polling shows that most Manhattan residents rarely patronize stores outside of the neighborhood where they live or work.

## DID YOU KNOW?

Manhattan is a walker's paradise. People are much more likely to walk a mile from point A to B than in almost any other city in America. Owning a car in Manhattan is very rare. The average New Yorker would probably prefer to walk half a mile (10 blocks) in good weather rather than deal with the hassle of hailing a cab or getting on a train or bus.

## DID YOU KNOW?

The NYC subway system now operates 24 hours a day, 7 days a week, 365 days a year. Like the city itself, the subway system never sleeps.

## DID YOU KNOW?

You can expect to wait for no more than 2-3 minutes for a taxicab during most hours (6am-midnight), though it might take you 10-15 minutes late at night (unless you go directly to the taxi company). You can expect to travel about 18 miles an hour by cab, or about 6 blocks per minute.

## DID YOU KNOW?

Manhattan is an island, and there are only a handful of ways on and off it. In the yellow pages you'll find a list of bridges and tunnels that are generally traveled by car (taxi or private). In addition, a few subway lines travel between boroughs. There are no airports open to the public in Manhattan - those flying in or out by plane need to travel through North Beach Air Field in Queens, Floyd Bennett Air Field in Brooklyn, or Newark Airport in New Jersey

## NEW YORKER LINGO

Uptown or Downtown? Roughly speaking, downtown addresses are those below 14th street, while those near 42nd street are midtown, and those above 72nd street are uptown. However, real New Yorkers will commonly refer to any area further North than their current location as "uptown" and any area further south of them as "downtown".

## HOW WELL DO YOU KNOW YOUR CITY?

The borough of Brooklyn is named after Breukelen, a small town in the Dutch province of Utrecht. The old Dutch word broek means marsh or bog, and -elen is a diminutive - so Breukelen was essentially "little marshland."

## HOW WELL DO YOU KNOW YOUR CITY?

The borough of Queens owes its name to a real queen. In 1683, when the English carved the colony into counties, they created Queens County, believed to honor Catherine of Braganza, the Portuguese princess who was then Queen of England as wife of Charles II.

## HOW WELL DO YOU KNOW YOUR CITY?

The borough of the Bronx is named after one man's farm. In 1639, a Scandinavian settler named Jonas Bronck took up land just north of Manhattan. Locals called the area "Bronck's land."

## HOW WELL DO YOU KNOW YOUR CITY?

The borough of Richmond began life as Staaten Eylandt - "States Island". When Henry Hudson sailed into the Narrows for the Dutch in the early 1600s, he named the island in honor of the Staten-Generaal, the Dutch parliament. Thus the place became Staaten Eylandt, "Island of the States." Under the English it was later organized as Richmond County, after the Duke of Richmond, but everyday New Yorkers never stopped saying Staten Island.

## NEW YORKER LINGO

New York City was first called "The Big Apple" in 1920 by John J. Fitz Gerald a reporter for the Morning Telegraph - horse racing slang for the ultimate prize.

## HOW WELL DO YOU KNOW YOUR CITY?

When the English peacefully took over New Amsterdam in 1664, they renamed it New York in honor of the Duke of York, but left much of the Dutch town plan and many Dutch families in place. New York City became the first capital of the United States in 1789.

## HOW WELL DO YOU KNOW YOUR CITY?

In a vault 80 feet below street level, New York City's Federal Reserve Bank holds about 10% of the world's gold, over \$1 billion worth, weighing over 1,500 metric tons.

## HOW WELL DO YOU KNOW YOUR CITY?

Wall Street really had a wall! The Dutch built a log palisade across the island in the 1650s as a defense line; the lane that ran along it kept the name Wall Street long after the wall itself vanished.

## HOW WELL DO YOU KNOW YOUR CITY?

The Dutch acquired Manhattan from the Lenape Indians and used it as a trading post called New Amsterdam, built around a wooden fort at the island's tip. In the mid-1600s the whole town held fewer than 2,000 people and about 250 houses.

## HOW WELL DO YOU KNOW YOUR CITY?

As early as the 1890s, reporters marveled that certain New York City districts never shut down. By the 1910s, newspapers were calling New York “the city that never sleeps,” a boast made possible by electric lights and night trains, and a population that worked, played, and argued at all hours.
